Hi Julie,

Very, very rough draft of the SOP for Marijuana.

Let me know what you think so far.

1. Still trying to figure out the policy for the sampling plan.
2. May try to combine & eliminate the Residue and Hashish analysis section. Very repetitive.
3. Address the negative and positive controls.
4. Need to clarify the THC Quant procedure. (try to understand the purpose of a primer and calibrator and is it needed)

Thx,  
ASD
